DETAILED ACTION

Allowable Subject Matter

Claims 1-4 are allowed.

The following is an examiner's statement of reasons for allowance: The art of record, Kobayashi et al. US 6711353 B2, appears to teach or render obvious all of the limitations of the claimed invention, see col. 1 line 1 – col. 2 line 7 and col. 15 lines 5-20. However, the present application has an earlier foreign priority date of October 20, 2001 and thus the Kobayashi et al. reference cannot be used as prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Fant et al. (US 6304730 B1) discloses a method of allowing a user to manual set the ISO rating of a film greater than the predetermined ISO rating and allowing an indication of this action to be placed on the film to aid in processing. Fant et al. however, does not disclose wherein the indication is for a particular image instead Fant et al. discloses that the indication is for the entire roll of film.
